

Oncology Nursing Brown Bag Lunch

Incidental Findings in the Genomic Era

Kathleen Calzone, PhD, RN, APNG, FAAN
Senior Nurse Specialist, Research
Genetics Branch, Center for Cancer Research, NCI

DATE: Monday, November 24, 2014

TIME: 12:00 PM – 1:00 PM

LOCATION: Admission's Conference Room

Objectives

1. Examine the scope of genomic incidental findings when using whole genome/exome analyses.
2. Describe the current guidance for the reporting of incidental findings in the clinical versus research contexts.
3. Discuss the whole genome/exome analyses studies to open at the NIH and implications for practice.
